

Make your own elf house

Did you know Anglo-Saxons believed in elves?

What would an elf house look like? Elves were rarely seen so would their houses be camouflaged?

Can you design an elf house? You can draw one or build one. To build one you could use recycled rubbish, Lego, bits from the garden, whatever you have to hand. The elf house in the photo was made from a box, sticks and hedge trimmings from the garden, wool, an elastic band, paint and glue.
